

Video/Audio Combined Cable

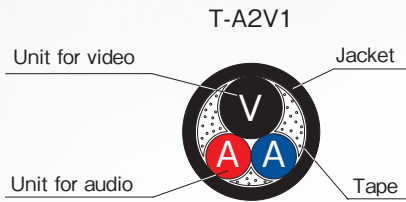

Application

- Transmit multiple wires to a device that simultaneously uses video and audio signals.

Features

- Multiple video and audio cables are put together in a fixed wiring connection.
- Transmit SD-SDI and analogue signals longer distances than conventional products.

Finished Cable Configuration

Construction/Properties

Model	Used unit			Unit					Finished cable		Electrical specification	
				Conductor	Shield			Sheath	OD mm	Weight kg / 100 m	Capacitance pF / m	Characteristic impedance Ω
				Structure Wires/mm	AL/PET tape	Structure Spindles/Wires/mm	Density %	OD mm			1kHz	10MHz
T-A2V1	A	T-2B2AT		16/0.12A	One side	—	—	3.2	9.7	10.6	61	—
	V	3C2V		1/0.50A	—	24/5/0.14A	93	4.4			67	75 ± 3
